

**REMARKS**

Applicant has amended several of the previously allowed claims to better define the invention. Specifically, new claim 25 corresponds to previously allowed claim 1 and claims 20-23 substantively correspond to allowed claims 20-23. Claim 1 has been amended, as a result of which claims 3-5 and 7-19, although not materially changed, have a somewhat different scope due to the different scope of amended independent claim 1. Claim 2 has been added as dependent from claim 1 to recite the projection feature which has been removed from allowed claim 1 by this amendment.

It is respectfully submitted that the claims in the application remain in condition for allowance. Accordingly, an early Notice of Allowance directed to these claims is courteously solicited. In addition, Applicant requests that the Examiner consider the Information Disclosure Statement and references submitted herewith, initial the IDS reference listing and return a copy of the initialed IDS reference listing to applicant together with the next office action.

Respectfully submitted,
